

DHL CONNECT

The image shows a woman in a business suit pointing at a large screen displaying the DHL Connect v3.3 software interface. The screen is divided into several sections: 'Shipment From' (Account Number, Company, Contact, Address, City, State/Province, Postal Code, Country, Phone), 'Options' (Customs Status, Delivery Options, Declared Value, Duty Paid Services), and 'Payment & Service Options' (Shipment is Paid By, Destination Duties/Taxes, Optional Services, Extra Charge). A hand is shown pointing at a 'Ship' button on a virtual screen. The DHL logo and 'dhl.com' are visible at the bottom of the screen.

- Choose the right DHL product by listing only the delivery options for your specified destination country
- Complete air waybills and customs documentation on your PC
- Prepare advance shipments to send later or automate regular shipments
- Book a pickup online in seconds
- Access real-time tracking by air waybill, piece ID, date, or shipper's reference
- Get the latest service bulletins and customs information
- Save unlimited sender and receiver addresses
- Compile mailing lists for sending identical shipments to different consignees
- Store a full shipment history for every job
- Create standard reports to review your shipment history
- Deliver e-mail pre-alerts to recipients
- Receive shipment delivery notifications

WHAT DO I NEED TO GET STARTED?

Besides a DHL account number, you will need:

Software requirements:

- Microsoft Windows® (95/98/2000/XP/NT4.0 and Vista) and Internet access
- The downloaded DHL Connect program from www.dhl.com.hk (Express > Resource Center > Downloads)

Hardware requirements:

- A PC with Internet access (Microsoft Internet Explorer® 6.0 or higher)
- A laser printer

Before you can use DHL Connect, you will need to download the file from DHL webpage by visiting www.dhl.com.hk.

For more information, please call the DHL eCom hotline at (852) 2400-3521 during office hours, send an email to hkgwebmaster@dhl.com or contact your DHL Sales Executive.
